

Environmental Policy

At Aevitas Inc., we prioritize effective environmental management as a cornerstone of our corporate responsibility. Our unwavering commitment is to safeguard and honor the environment by excelling in environmental performance throughout our operations. To uphold this commitment, Aevitas Inc. will concentrate on the following key initiatives:

Continual Improvement: Engage in a perpetual process of refining our environmental management practices.

Environmental Impact Assessment: Evaluate the impacts of our operations and facilities, striving to eliminate and minimize these impacts.

Employee Empowerment: Enhance employee environmental performance through comprehensive policies, procedures, training, and recognition of exceptional efforts.

Resource Efficiency: Optimize natural resource usage to curtail waste generation, emphasizing recycling, innovative methods, and pollution prevention.

Performance Measurement: Gauge our environmental performance through audits, ensuring employee accountability, and transparent reporting to senior management.

Integration and Decision-Making: Embed environmental responsibilities into our daily operations and business decision-making processes.

Industry Participation: Engage actively in shaping sound environmental policies within the transportation and business sectors.

Emergency Preparedness: Commit to swift and efficient responses to minimize potential environmental impacts stemming from day-to-day operations.

Innovative Solutions: Utilize advanced technologies to reduce atmospheric emissions and noise.

Supplier and Contractor Engagement: Promote effective environmental management practices among our suppliers and contractors.

Regulatory Compliance: Adhere rigorously to all relevant environmental laws and regulations.

Public Awareness: Advocate our environmental policies and practices to both our employees and the broader public.

This comprehensive approach underscores our dedication to environmental stewardship. By aligning our actions with these initiatives, we endeavor to make a meaningful, positive impact on our environment while ensuring sustainable business practices.
